

Release Notes

CY8CKIT-040 PSoC® 4000 Pioneer Kit

Release Date: March 9, 2015

Thank you for your interest in the CY8CKIT-040 PSoC® 4000 Pioneer Kit. This document lists the installation requirements and software and hardware updates for the kit.

Kit Contents

The CY8CKIT-040 PSoC 4000 Pioneer Kit includes the following:

- PSoC 4000 Pioneer Kit board
- Trackpad shield board
- Quick start guide
- USB Standard A to Mini-B cable
- 6 jumper wires

Installation

Installation instructions are provided in the PSoC 4000 Pioneer Kit User Guide, which is available at www.cypress.com/CY8CKIT-040.

Kit Revision

The kit code examples are updated to support PSoC Creator 3.1 Service Pack 1. There are no hardware changes to the kit.

Documentation

The kit documents are located in the `Documentation` folder in the install directory:

Documents include:

- *CY8CKIT-040_Kit_Guide.pdf*
- *CY8CKIT-040_Quick_Start_Guide.pdf*
- *CY8CKIT-040_Release_Notes.pdf*

After opening PSoC Creator, the documentation is available in **Help → Documentation**.

The default location for PSoC Creator documents is:

`<Install_Directory>\PSoC Creator\<version>\PSoC Creator\documentation`

The default location for PSoC Programmer documents is:

`<Install_Directory>\Programmer\Documents`

Technical Support

For assistance, go to www.cypress.com/go/support or contact our customer support at +1 (800) 541-4736 Ext. 2 (in the USA), or +1 (408) 943-2600 Ext. 2 (International).

Additional Information

- For more information about PSoC Creator functionality and releases, visit the PSoC Creator web page: www.cypress.com/go/psoccreator
- For more information about PSoC Programmer and supported hardware, visit the PSoC Programmer web page: www.cypress.com/go/psocprogrammer
- For a list of trainings on PSoC Creator, visit www.cypress.com/go/creatorstart/creatortraining

Flash Code Protection

Cypress products meet the specifications contained in their particular Cypress PSoC Datasheets. Cypress believes that its family of PSoC products is one of the most secure families of its kind on the market today, regardless of how they are used. There may be methods, unknown to Cypress that can breach the code protection features. Any of these methods, to our knowledge, would be dishonest and possibly illegal. Neither Cypress nor any other semiconductor manufacturer can guarantee the security of their code. Code protection does not mean that we are guaranteeing the product as "unbreakable."

Cypress is willing to work with the customer who is concerned about the integrity of their code. Code protection is constantly evolving. We at Cypress are committed to continuously improving the code protection features of our products.
